

## \$LIBERTY Trust and Safety Guidelines – Keeping It Safe & Based

(Last updated: March 7, 2026)

The \$LIBERTY Trust & Safety Team is here to keep the \$LIBERTY Community safe from scams, malicious actors, and disruptive behaviors. We actively moderate the official \$LIBERTY channels (X/Twitter, Telegram, Discord, etc.) and maintain a welcoming atmosphere with a light and humorous vibe.

### Core Rules - What We Don't Allow

1. Scams, phishing, or fraud - No fake giveaways, wallet drainers, impersonation of team/holders, fake airdrops, "send SOL to get 10x" BS, or links to malicious sites. Instant ban + report.
2. Spam & shilling other tokens - Pump your bags elsewhere. No repetitive promo, bot spam, raid links, or off-topic token plugs without team approval.
3. Harassment, hate, or toxicity - Keep it civil-even if you're raging about a dip.
4. Illegal or dangerous content - Nothing promoting violence or illegal activities as per the laws of the USA
5. Misinformation - Deliberate fake news about \$LIBERTY designed to create fear or uncertainty. Warnings first, bans for repeats.
6. NSFW / adult content - Not allowed. Instant ban or warning depending on context.
7. Impersonation - Don't pretend to be team, mods, big holders, or bag holders.

### How Moderation Works

- Our Trust & Safety Team (real humans, not just bots) monitors actively.
- Warnings → mutes → temporary bans → permanent bans (escalating based on severity/repeats).
- Serious stuff (scams targeting wallets) = immediate ban + reported if needed.
- Appeals: DM the Head of Trust and Safety or @Marak to hear your side (politely) within 7 days, we review fairly.
- We aim for transparency: major actions get explained in announcements when possible.
